Hey,

In the account settings for the dabs ordering, what does the select your city and store pickup location mean?

Do we have to set this for pickups of some type?

I don't really understand what these settings are for or how they effect our account setup, do you?

Thanks,
Shawn

This would take some time to explain. Basically there is one specific store that we can place transfer orders from which will come on the delivery truck and that is it. If you need more info I can tell you over the phone.

Got it.

What is the difference between a transfer order and a warehouse order?

I only see warehouse orders in our history.

Thanks

For a transfer order, say we only want 3 of an item because we don't sell a lot of it, like it's an expensive Scotch or something that a restaurant only wants a few bottles of but we don't want to buy a case and then have to carry the surplus, I can search the public DABC site to see if the "Club Store" / store 33 has the item in stock and then order just 3 of them over the phone, which they pack up for us and send on the truck.

Got it! That totally makes sense. Thanks!

Basically this would typically only be used if we were doing this for one of the restaurants in order to get them what they are wanting, or if we wanted to order something for a local say that normally would be a case only but we only want a few bottles, then this would only be the way to do that without having to buy the entire cases?
