

I'll read the currently open email thread to understand what step-by-step guide you need.

Let me read the screenshots to get the complete details for the step-by-step guide.

Based on the email thread, I'll create a step-by-step guide for accessing and generating the sales reports in the SSCS back office system for DABS monthly reporting:

Step-by-Step Guide: Generating SSCS Sales Reports for DABS Monthly Report

Purpose

This guide outlines how to access and generate the sales reports from the SSCS back office system that are needed for the monthly DABS (Department of Alcoholic Beverage Control) reporting.

Prerequisites

- Access to SSCS back office system
- Knowledge of the reporting date range needed

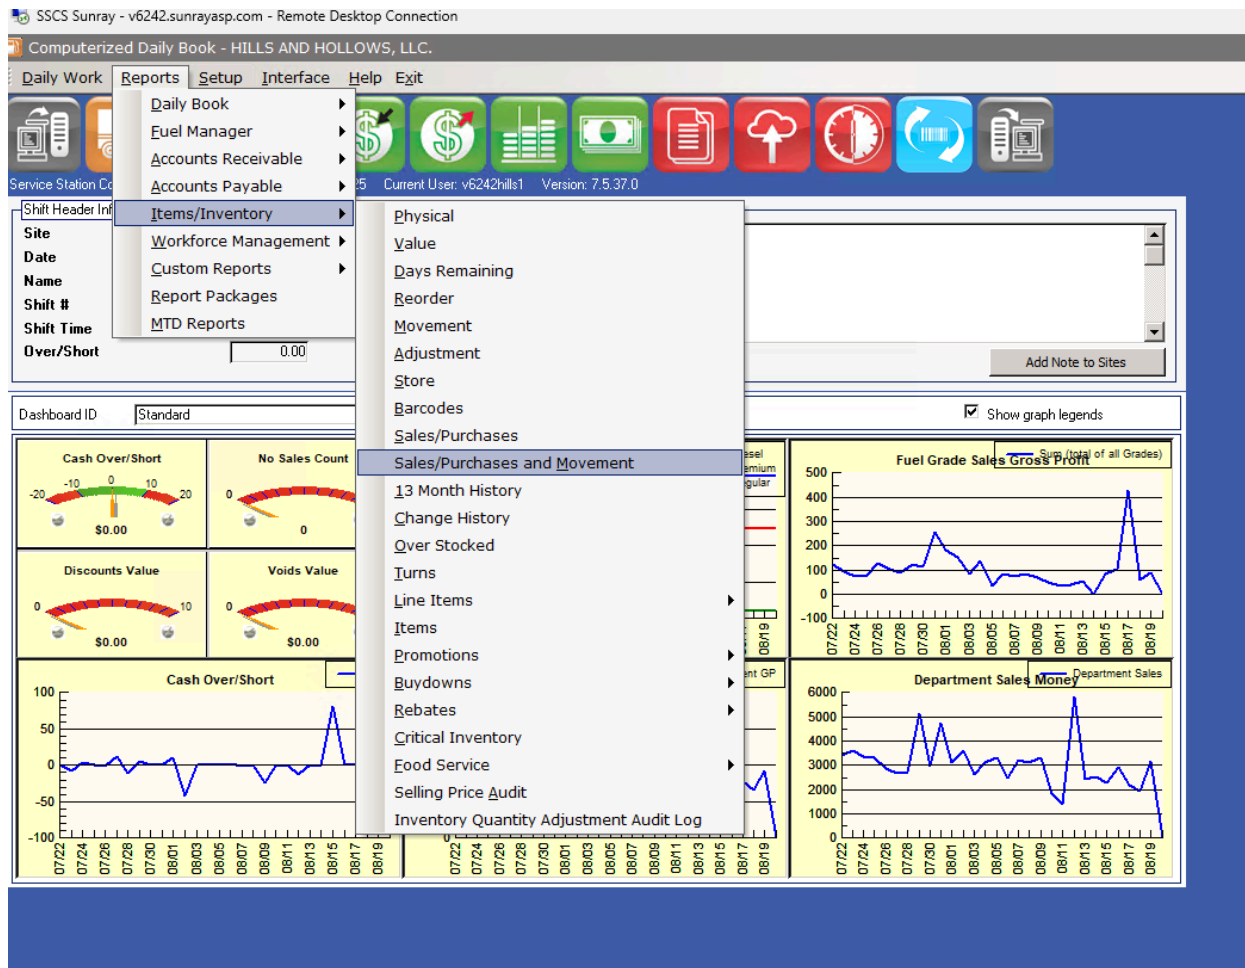

Steps

Step 1: Access the SSCS Back Office System

- Log into the SSCS back office system
- Navigate to the main reports screen/menu

Step 2: Select Sales Reports

- From the main reports menu, locate and select the sales reports option
- This will take you to the sales report configuration screen

Step 3: Configure Report Parameters

- **Set Date Range:**
 - Enter the beginning date (start of the month you're reporting)
 - Enter the ending date (end of the month you're reporting)
 - Note: These dates should correlate with the specific month needed for DABS reporting

Inventory List

Report: Sales/Purchases and Movement

Apply Criteria Filter: []

Account Range: [5] [LIQUOR STORE] [00] [OTHER]

To: [5] [LIQUOR STORE] [99] []

Beginning Date: [8/1/2025 12:05:00 AM] []

Ending Date: [8/19/2025 12:05:00 AM] []

Site: [1]

PLUs Only? ☐

Vendor ID: []

Item Group ID: []

Primary Sort: [Vendor Item #]

Secondary Sort: [PLU]

[Print (F3)] [View (F6)] [Cancel]

Step 4: Generate the Report

- After setting the date parameters, execute the report by pressing View (F6)
- The system will generate a comprehensive sales report

Step 5: Review Report Contents

What the report includes:

- All items that were bought OR sold during the specified time range
- Complete transaction data for DABS reporting requirements

Important limitations to note:

- **Missing data:** List price information is NOT included in this report
- **Inventory gaps:** Items in inventory that didn't move (no purchases or sales) during the time period will NOT appear on this report

Step 6: Export/Extract Data

- Press the small Icon that is at the top left of the report just right of the Printer Icon. This will open up a prompt menu where you can email the report to shawn@owenent.com and BCC to another email address to email the report.
- Use the system's export functionality to extract the report data

- Save in the format required for the DABS monthly report upload template

Automation Benefits

Once automated, this process will eliminate approximately **16.5+ hours of manual work per month** currently required for DABS reporting.

Next Steps for Automation

The screenshots and process documentation will be used to build automation that will:

- Automatically access the correct reports
- Set appropriate date ranges
- Export data in the required format
- Eliminate manual intervention in the monthly reporting process

This guide is part of the DABS reporting automation project to streamline Hills & Hollows monthly compliance reporting.
